

Creating an Urban Oasis Wildlife Friendly Gardens

Saturday, May 15 . 9:00 a.m. - 12:30 p.m. . \$25 per person

Carkeek Park Environmental Learning Center

950 NW Carkeek Park Road, Seattle WA 98177

(Bring a snack for breaks.)

Learn about creating your own urban oasis for your family and our local wildlife. In this class, you will discover what diversity of beautiful, abundant life you can expect to attract and how to carry out basic naturescaping (organic, natural gardening) design, installation, and maintenance. Explore incorporating rain gardens, vegetable gardens, native edibles and medicinal plants into your wildlife-friendly garden. Learn about potential funding resources and create a plan that can become certified wildlife habitat. Come to learn, bring your questions and if you have already started, bring a property map, photos and your existing plant list. This class is appropriate, new and experienced gardeners and for industry professionals.

Presented by Kimberly Leeper of Mariposa Naturescapes
and Heather Swift of Cohabitats.
